

Date: December 15, 2011

Name of Product: **Public Records Tracker** built on Microsoft Dynamics CRM. Microsoft Dynamics® CRM 2011, Microsoft Dynamics® CRM Online (also covers Microsoft Dynamics® CRM 2011 for Outlook and Microsoft Dynamics® CRM 2011 Mobile Express)”

Contact for more information: <http://www.microsoft.com/Dynamics/CRM> or <http://www.microsoft.com/enable/>

Summary Table

Voluntary Product Accessibility Template

Criteria	Supporting Feature	Remarks and Explanations
Section 1194.21 Software Applications and Operating Systems	Level of Support Varies by Individual Requirement	This criteria is fully supported for Microsoft CRM 2011 Mobile Express
Section 1194.22 Web-based internet information and applications	Level of Support Varies by Individual Requirement	See VPAT for details
Section 1194.23 Telecommunications Products	Not Applicable	Microsoft Dynamics® CRM 2011 is not considered a telecommunications product.
Section 1194.24 Video and Multi-media Products	Level of Support Varies by Individual Requirement	The 1194.24 response only applies to training media content – see VPAT for details
Section 1194.25 Self-Contained, Closed Products	Not Applicable	Microsoft Dynamics CRM 2011 is not a self-contained product.
Section 1194.26 Desktop and Portable Computers	Not Applicable	Microsoft Dynamics CRM 2011 is software as defined under section 1194.21
Section 1194.31 Functional Performance Criteria	Level of Support Varies by Individual Requirement	See VPAT for details
Section 1194.41 Information, Documentation and Support	Supported	Click here to enter text.

Section 1194.21 Software Applications and Operating Systems - Detail

Voluntary Product Accessibility Template

Criteria	Supporting Feature	Remarks and Explanations
<p>(a) When software is designed to run on a system that has a keyboard, product functions shall be executable from a keyboard where the function itself or the result of performing a function can be discerned textually.</p>	<p>Supported with Exceptions</p>	<p>Keyboard access is provided in core areas of Microsoft Dynamics CRM 2011. Keyboard shortcuts, shortcut keys, and menu commands are available in Microsoft Dynamics CRM 2011.</p> <p>Microsoft Dynamics CRM 2011 Help functionality includes an accessible reference guide for keyboard accessibility.</p> <p>Keyboard navigation is supported throughout the product with the exception of some functionality within Process rule editing, E-Mail and Article/E-Mail and Article template editing</p>
<p>(b) Applications shall not disrupt or disable activated features of other products that are identified as accessibility features, where those features are developed and documented according to industry standards. Applications also shall not disrupt or disable activated features of any operating system that are identified as accessibility features where the application programming interface for those accessibility features has been documented by the manufacturer of the operating system and is available to the product developer.</p>	<p>Supported with Minor Exceptions</p>	<p>Microsoft Dynamics CRM 2011 supports Microsoft Windows accessibility features including StickyKeys, FilterKeys, MouseKeys, SerialKeys, ToggleKeys and High Contrast</p> <p>High contrast is supported with the exception of some functionality within the Form Designer</p>
<p>(c) A well-defined on-screen indication of the current focus shall be provided that moves among interactive interface elements as the input focus changes. The focus shall be programmatically exposed so that Assistive Technology can track focus and focus changes.</p>	<p>Supported with Minor Exceptions</p>	<p>In Microsoft Dynamics CRM 2011 provides visual indication of current focus throughout the product with the exception for some functionality within the Deployment Manager and Help</p>

Criteria	Supporting Feature	Remarks and Explanations
(d) Sufficient information about a user interface element including the identity, operation and state of the element shall be available to Assistive Technology. When an image represents a program element, the information conveyed by the image must also be available in text.	Supported with Exceptions	Microsoft Dynamics CRM 2011 user interface elements are consistently exposed programmatically with the exception of some functionality in: Microsoft Dynamics CRM 2011 for Outlook Reading Pane, Process editing, Advanced Find, Contract Template, E-Mail message and KB article (body)
(e) When bitmap images are used to identify controls, status indicators, or other programmatic elements, the meaning assigned to those images shall be consistent throughout an application's performance.	Supported	Click here to enter text.
(f) Textual information shall be provided through operating system functions for displaying text. The minimum information that shall be made available is text content, text input caret location, and text attributes.	Supported	Click here to enter text.
(g) Applications shall not override user selected contrast and color selections and other individual display attributes.	Supported with Minor Exceptions	IE zoom functionality should be used instead of IE font size settings.
(h) When animation is displayed, the information shall be displayable in at least one non-animated presentation mode at the option of the user.	Not Applicable	Click here to enter text.
(i) Color coding shall not be used as the only means of conveying information, indicating an action, prompting a response, or distinguishing a visual element.	Supported	Click here to enter text.
(j) When a product permits a user to adjust color and contrast settings, a variety of color selections capable of producing a range of contrast levels shall be provided.	Not Applicable	Click here to enter text.

Criteria	Supporting Feature	Remarks and Explanations
(k) Software shall not use flashing or blinking text, objects, or other elements having a flash or blink frequency greater than 2 Hz and lower than 55 Hz.	Supported	Click here to enter text.
(l) When electronic forms are used, the form shall allow people using Assistive Technology to access the information, field elements, and functionality required for completion and submission of the form, including all directions and cues.	Supported with Minor Exceptions	People using Assistive Technology can access the information, field elements, and functionality required for completion and submission of forms with the exception of some functionality in Process Editing

Section 1194.22 Web-based Internet information and applications - Detail

Voluntary Product Accessibility Template

Criteria	Supporting Feature	Remarks and Explanations
(a) A text equivalent for every non-text element shall be provided (e.g., via "alt", "longdesc", or in element content).	Supported with Minor Exceptions	Text equivalent for every non-text element are provided with the exception for some functionality in Process Editing and Ribbon
(b) Equivalent alternatives for any multimedia presentation shall be synchronized with the presentation.	Not Supported	Help videos provide alternative text which is not synchronized with the presentation
(c) Web pages shall be designed so that all information conveyed with color is also available without color, for example from context or markup.	Supported	Click here to enter text.
(d) Documents shall be organized so they are readable without requiring an associated style sheet.	Not Supported	Microsoft Dynamics CRM 2011 is a web application that requires style sheets
(e) Redundant text links shall be provided for each active region of a server-side image map.	Not Applicable	Click here to enter text.
(f) Client-side image maps shall be provided instead of server-side image maps except where the regions cannot be defined with an available geometric shape.	Not Applicable	Click here to enter text.
(g) Row and column headers shall be identified for data tables.	Supported	Click here to enter text.
(h) Markup shall be used to associate data cells and header cells for data tables that have two or more logical levels of row or column headers.	Supported	Click here to enter text.
(i) Frames shall be titled with text that facilitates frame identification and navigation	Supported	Click here to enter text.
(j) Pages shall be designed to avoid causing the screen to flicker with a frequency greater than 2 Hz and lower than 55 Hz.	Supported	Click here to enter text.

Criteria	Supporting Feature	Remarks and Explanations
(k) A text-only page, with equivalent information or functionality, shall be provided to make a web site comply with the provisions of this part, when compliance cannot be accomplished in any other way. The content of the text-only page shall be updated whenever the primary page changes.	Supported	Click here to enter text.
(l) When pages utilize scripting languages to display content, or to create interface elements, the information provided by the script shall be identified with functional text that can be read by Assistive Technology.	Supported	Click here to enter text.
(m) When a web page requires that an applet, plug-in or other application be present on the client system to interpret page content, the page must provide a link to a plug-in or applet that complies with §1194.21(a) through (l).	Not Applicable	Click here to enter text.
(n) When electronic forms are designed to be completed on-line, the form shall allow people using Assistive Technology to access the information, field elements, and functionality required for completion and submission of the form, including all directions and cues.	Supported with Minor Exceptions	People using Assistive Technology can access the information, field elements, and functionality required for completion and submission of forms with the exception of some functionality in Process Editing
(o) A method shall be provided that permits users to skip repetitive navigation links.	Supported	Click here to enter text.
(p) When a timed response is required, the user shall be alerted and given sufficient time to indicate more time is required.	Not Applicable	Click here to enter text.

Section 1194.23 Telecommunications Products – Detail

Voluntary Product Accessibility Template

Criteria	Supporting Feature	Remarks and Explanations
(a) Telecommunications products or systems which provide a function allowing voice communication and which do not themselves provide a TTY functionality shall provide a standard non-acoustic connection point for TTYs. Microphones shall be capable of being turned on and off to allow the user to intermix speech with TTY use.	Not Applicable	Click here to enter text.
(b) Telecommunications products which include voice communication functionality shall support all commonly used cross-manufacturer non-proprietary standard TTY signal protocols.	Not Applicable	Click here to enter text.
(c) Voice mail, auto-attendant, and interactive voice response telecommunications systems shall be usable by TTY users with their TTYs.	Not Applicable	Click here to enter text.
(d) Voice mail, messaging, auto-attendant, and interactive voice response telecommunications systems that require a response from a user within a time interval, shall give an alert when the time interval is about to run out, and shall provide sufficient time for the user to indicate more time is required.	Not Applicable	Click here to enter text.
(e) Where provided, caller identification and similar telecommunications functions shall also be available for users of TTYs, and for users who cannot see displays.	Not Applicable	Click here to enter text.
(f) For transmitted voice signals, telecommunications products shall provide a gain adjustable up to a minimum of 20 dB. For incremental volume control, at least one intermediate step of 12 dB of gain shall be provided.	Not Applicable	Click here to enter text.

Criteria	Supporting Feature	Remarks and Explanations
(g) If the telecommunications product allows a user to adjust the receive volume, a function shall be provided to automatically reset the volume to the default level after every use.	Not Applicable	Click here to enter text.
(h) Where a telecommunications product delivers output by an audio transducer which is normally held up to the ear, a means for effective magnetic wireless coupling to hearing technologies shall be provided.	Not Applicable	Click here to enter text.
(i) Interference to hearing technologies (including hearing aids, cochlear implants, and assistive listening devices) shall be reduced to the lowest possible level that allows a user of hearing technologies to utilize the telecommunications product.	Not Applicable	Click here to enter text.
(j) Products that transmit or conduct information or communication, shall pass through cross-manufacturer, non-proprietary, industry-standard codes, translation protocols, formats or other information necessary to provide the information or communication in a usable format. Technologies which use encoding, signal compression, format transformation, or similar techniques shall not remove information needed for access or shall restore it upon delivery.	Not Applicable	Click here to enter text.
(k)(1) Products which have mechanically operated controls or keys shall comply with the following: Controls and Keys shall be tactilely discernible without activating the controls or keys.	Not Applicable	Click here to enter text.

Criteria	Supporting Feature	Remarks and Explanations
(k)(2) Products which have mechanically operated controls or keys shall comply with the following: Controls and Keys shall be operable with one hand and shall not require tight grasping, pinching, twisting of the wrist. The force required to activate controls and keys shall be 5 lbs. (22.2N) maximum.	Not Applicable	Click here to enter text.
(k)(3) Products which have mechanically operated controls or keys shall comply with the following: If key repeat is supported, the delay before repeat shall be adjustable to at least 2 seconds. Key repeat rate shall be adjustable to 2 seconds per character.	Not Applicable	Click here to enter text.
(k)(4) Products which have mechanically operated controls or keys shall comply with the following: The status of all locking or toggle controls or keys shall be visually discernible, and discernible either through touch or sound.	Not Applicable	Click here to enter text.

Section 1194.24 Video and Multi-media Products – Detail

Voluntary Product Accessibility Template

Criteria	Supporting Feature	Remarks and Explanations
<p>a) All analog television displays 13 inches and larger, and computer equipment that includes analog television receiver or display circuitry, shall be equipped with caption decoder circuitry which appropriately receives, decodes, and displays closed captions from broadcast, cable, videotape, and DVD signals. As soon as practicable, but not later than July 1, 2002, widescreen digital television (DTV) displays measuring at least 7.8 inches vertically, DTV sets with conventional displays measuring at least 13 inches vertically, and stand-alone DTV tuners, whether or not they are marketed with display screens, and computer equipment that includes DTV receiver or display circuitry, shall be equipped with caption decoder circuitry which appropriately receives, decodes, and displays closed captions from broadcast, cable, videotape, and DVD signals.</p>	<p>Not Applicable</p>	<p>Click here to enter text.</p>
<p>(b) Television tuners, including tuner cards for use in computers, shall be equipped with secondary audio program playback circuitry.</p>	<p>Not Applicable</p>	<p>Click here to enter text.</p>
<p>(c) All training and informational video and multimedia productions which support the agency's mission, regardless of format, that contain speech or other audio information necessary for the comprehension of the content, shall be open or closed captioned.</p>	<p>Not Supported</p>	<p>Help videos provide alternative text which is not synchronized with the presentation</p>

Criteria	Supporting Feature	Remarks and Explanations
(d) All training and informational video and multimedia productions which support the agency's mission, regardless of format, that contain visual information necessary for the comprehension of the content, shall be audio described.	Supported	Narration is sufficient for users to audibly understand the concepts described in training videos by just listening.
(e) Display or presentation of alternate text presentation or audio descriptions shall be user-selectable unless permanent.	Not Applicable	Click here to enter text.

Section 1194.25 Self-Contained, Closed Products - Detail

Voluntary Product Accessibility Template

Criteria	Supporting Feature	Remarks and Explanations
(a) Self contained products shall be usable by people with disabilities without requiring an end-user to attach Assistive Technology to the product. Personal headsets for private listening are not Assistive Technology.	Not Applicable	Click here to enter text.
(b) When a timed response is required, the user shall be alerted and given sufficient time to indicate more time is required.	Not Applicable	Click here to enter text.
(c) Where a product utilizes touchscreens or contact-sensitive controls, an input method shall be provided that complies with §1194.23 (k) (1) through (4).	Not Applicable	Click here to enter text.
(d) When biometric forms of user identification or control are used, an alternative form of identification or activation, which does not require the user to possess particular biological characteristics, shall also be provided.	Not Applicable	Click here to enter text.
(e) When products provide auditory output, the audio signal shall be provided at a standard signal level through an industry standard connector that will allow for private listening. The product must provide the ability to interrupt, pause, and restart the audio at anytime.	Not Applicable	Click here to enter text.

Criteria	Supporting Feature	Remarks and Explanations
<p>(f) When products deliver voice output in a public area, incremental volume control shall be provided with output amplification up to a level of at least 65 dB. Where the ambient noise level of the environment is above 45 dB, a volume gain of at least 20 dB above the ambient level shall be user selectable. A function shall be provided to automatically reset the volume to the default level after every use.</p>	<p>Not Applicable</p>	<p>Click here to enter text.</p>
<p>(g) Color coding shall not be used as the only means of conveying information, indicating an action, prompting a response, or distinguishing a visual element.</p>	<p>Not Applicable</p>	<p>Click here to enter text.</p>
<p>(h) When a product permits a user to adjust color and contrast settings, a range of color selections capable of producing a variety of contrast levels shall be provided.</p>	<p>Not Applicable</p>	<p>Click here to enter text.</p>
<p>(i) Products shall be designed to avoid causing the screen to flicker with a frequency greater than 2 Hz and lower than 55 Hz.</p>	<p>Not Applicable</p>	<p>Click here to enter text.</p>
<p>(j) (1) Products which are freestanding, non-portable, and intended to be used in one location and which have operable controls shall comply with the following: The position of any operable control shall be determined with respect to a vertical plane, which is 48 inches in length, centered on the operable control, and at the maximum protrusion of the product within the 48 inch length on products which are freestanding, non-portable, and intended to be used in one location and which have operable controls.</p>	<p>Not Applicable</p>	<p>Click here to enter text.</p>

Criteria	Supporting Feature	Remarks and Explanations
<p>(j)(2) Products which are freestanding, non-portable, and intended to be used in one location and which have operable controls shall comply with the following: Where any operable control is 10 inches or less behind the reference plane, the height shall be 54 inches maximum and 15 inches minimum above the floor.</p>	<p>Not Applicable</p>	<p>Click here to enter text.</p>
<p>(j)(3) Products which are freestanding, non-portable, and intended to be used in one location and which have operable controls shall comply with the following: Where any operable control is more than 10 inches and not more than 24 inches behind the reference plane, the height shall be 46 inches maximum and 15 inches minimum above the floor.</p>	<p>Not Applicable</p>	<p>Click here to enter text.</p>
<p>(j)(4) Products which are freestanding, non-portable, and intended to be used in one location and which have operable controls shall comply with the following: Operable controls shall not be more than 24 inches behind the reference plane.</p>	<p>Not Applicable</p>	<p>Click here to enter text.</p>

Section 1194.26 Desktop and Portable Computers - Detail

Voluntary Product Accessibility Template

Criteria	Supporting Feature	Remarks and Explanations
(a) All mechanically operated controls and keys shall comply with §1194.23 (k) (1) through (4).	Not Applicable	Click here to enter text.
(b) If a product utilizes touchscreens or touch-operated controls, an input method shall be provided that complies with §1194.23 (k) (1) through (4).	Not Applicable	Click here to enter text.
(c) When biometric forms of user identification or control are used, an alternative form of identification or activation, which does not require the user to possess particular biological characteristics, shall also be provided.	Not Applicable	Click here to enter text.
(d) Where provided, at least one of each type of expansion slots, ports and connectors shall comply with publicly available industry standards	Not Applicable	Click here to enter text.

Section 1194.31 Functional Performance Criteria – Detail

Voluntary Product Accessibility Template

Criteria	Supporting Feature	Remarks and Explanations
(a) At least one mode of operation and information retrieval that does not require user vision shall be provided, or support for Assistive Technology used by people who are blind or visually impaired shall be provided.	Supported with Exceptions	Text equivalent for every non-text element are provided with the exception for some functionality in Process Editing and Ribbon as noted in 1194.21
(b) At least one mode of operation and information retrieval that does not require visual acuity greater than 20/70 shall be provided in audio and enlarged print output working together or independently, or support for Assistive Technology used by people who are visually impaired shall be provided.	Supported with Minor Exceptions	Limitations with IE font size settings and in Deployment Manager and Help as noted in 1194.21
(c) At least one mode of operation and information retrieval that does not require user hearing shall be provided, or support for Assistive Technology used by people who are deaf or hard of hearing shall be provided	Not Supported	Help videos provide alternative text which is not synchronized with the presentation as noted in 1194.22 and 1194.24
(d) Where audio information is important for the use of a product, at least one mode of operation and information retrieval shall be provided in an enhanced auditory fashion, or support for assistive hearing devices shall be provided.	Not Applicable	Click here to enter text.
(e) At least one mode of operation and information retrieval that does not require user speech shall be provided, or support for Assistive Technology used by people with disabilities shall be provided.	Not Applicable	Click here to enter text.

Criteria	Supporting Feature	Remarks and Explanations
<p>(f) At least one mode of operation and information retrieval that does not require fine motor control or simultaneous actions and that is operable with limited reach and strength shall be provided.</p>	<p>Supported with Exceptions</p>	<p>When the StickyKeys feature is on, the user can press a modifier key (SHIFT, CTRL, or ALT) and then another key in sequence rather than at the same time, to enter shifted (modified) characters and other key combinations. Pressing a modifier key once latches the key down until the user presses a non-modifier key or clicks a mouse button. Pressing a modifier key twice locks the key until the user presses the key a third time.</p> <p>The FilterKeys accessibility feature allows the user to set the keyboard repeat rate, acceptance delay and bounce rate.</p> <p>Full keyboard navigation support is provided except as noted in section 1194.21.</p> <p>In addition, while Microsoft Dynamics CRM 2011 supports speech-based assistive aids, there are two exceptions when such aids fail to respond to speech commands while in the Notes field and Report Viewer Edit Boxes of the application.</p>

Section 1194.41 Information, Documentation and Support - Detail

Voluntary Product Accessibility Template

Criteria	Supporting Feature	Remarks and Explanations
(a) Product support documentation provided to end-users shall be made available in alternate formats upon request, at no additional charge	Supported	Online documentation is available at http://...
(b) End-users shall have access to a description of the accessibility and compatibility features of products in alternate formats or alternate methods upon request, at no additional charge.	Supported	Click here to enter text.
(c) Support services for products shall accommodate the communication needs of end-users with disabilities.	Supported	<p>The Microsoft Product Support Services Help Desk is familiar with such features as keyboard access and other options important to people with disabilities.</p> <p>Microsoft offers a teletypewriter (TTY) service for customers who are hearing impaired. For assistance in the United States, contact Microsoft Technical Support on a TTY at 1-800-892-5234. This service is available Monday through Friday 6:00 A.M. to 6:00 P.M. PST.</p> <p>For information on additional support services, visit the Microsoft Accessibility Web site at http://www.microsoft.com/enable/</p>
